Description

You might know the french sound artist Julien Demoulin from his "Fanø"-release on Audio Gourmet, his recent collaboration "The Bay" with IA on Basses Fréquences, or from his work as Silencio (the new album, "When I'm Gone" was recently released on three:four records). His first release on Resting Bell is the wonderful "Tough Love EP". 5 tracks with a complete duration of 16 minutes.

Glittering and oscillating sounds drifting around. Guitar melodies are glaring through like rays of sunlight. The complete EP has got a very organic, evolving soundscape. Sound ideas develop like little plants and are woven together to small shining islands, where you can lay back and relax. Please welcome the spring and the warm season with this beautiful EP.

This release is also available as a tape from Of Plants with a different tracklist.
